

Finally, free yourself from back pain.

Spinal Stenosis

Sciatica

Arthritis of the Spine

Degenerative Disc Disease

Herniated Disc

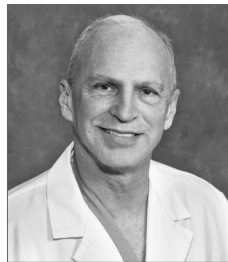

Bone Spurs

Foraminal Stenosis

Facet Disease

Laser Spine Institute's minimally invasive procedures are the safe and effective alternative to open back or neck surgery.

Each month, more people come to Laser Spine Institute to relieve their back and neck pain than to any other spine surgery center in the nation.

Keith Girton, M.D.

Orthopedic Spine Surgeon

Advantages of our endoscopic approach:

- Outpatient procedure
- No lengthy recovery
- Less than 1-inch incision
- No fusions or hardware
- 91% patient satisfaction
