

Unit: Applying Design Principles to Multimedia	Concept: Design Skills
Standard <ul style="list-style-type: none"> 3.5.9-12.P Apply a broad range of design skills to a design thinking process. 	
Key Learning <ul style="list-style-type: none"> (LTTG) Students will be able to demonstrate integrity and conscientiousness, considering ethical issues involved. 	Unit Essential Question <ul style="list-style-type: none"> How can I demonstrate integrity and conscientiousness, considering ethical issues involved?
Essential Question <ul style="list-style-type: none"> Why is there no single correct solution in design? 	
Key Vocabulary <ul style="list-style-type: none"> Creativity, Collaboration, Resourcefulness, Ideation, and Design Thinking 	
Learning Experience <ul style="list-style-type: none"> Students who demonstrate understanding can apply a broad range of design skills to a design thinking process. Clarifying Statement: Students engage in meaningful discourse about the essential skills they have applied when engaged in designing, constructing, and implementing a solution. These include creativity, collaboration, resourcefulness, ideation, learning through failure, and many other essential skills of design. 	
(Big Idea) Technology & Engineering Curriculum Framework Big Ideas <ul style="list-style-type: none"> There is no single, best solution as designs can always be improved and refined. 	
(SEP) Science and Engineering Practices <ul style="list-style-type: none"> Constructing Explanations and Designing Solutions - Design, evaluate, and/or refine a solution to a complex real-world problem, based on scientific knowledge, student-generated sources of evidence, prioritized criteria, and trade-off considerations. 	
(DCI) Disciplinary Core Ideas <ul style="list-style-type: none"> ISTE 4A - Students know and use a deliberate design process for generating ideas, testing theories, creating innovative artifacts or solving authentic problems. 	
(TEP) Technology and Engineering Practices <ul style="list-style-type: none"> Making and Doing - Demonstrates the ability to regulate and improve making and doing skills. 	
Terms <ul style="list-style-type: none"> (ETS) Engineering, Technology, and Applications of Science – Standards applicable across the Science, Environmental Literacy & Sustainability, and Technology & Engineering content areas. 	

- (LTTG) PDE Technology & Engineering Long Term Transfer Goals
- (Learning Experience) A learning experience refers to any interaction, activity, or other experience in which students acquire new understanding, knowledge, behaviors, or skills.
