Notes

Req	Requirements		Originality			
	Requirements not met		Little original thought			
	Missing Parts		Originality of design elements			
	Project Incomplete		Work on creativity / innovation			
	Missing Mock-Up		Don't just copy and paste			
Fun	Functionality		Attractiveness			
	Does not function correctly		Work on visual appeal			
	Size or layout is incorrect		Work on flow			
	Too much randomness		Work on visual hierarchy			
	Work on consistency		Add more design elements			
Gra	Graphics		Organization			
	Image(s) appear pixilated		Spacing of design elements			
	Image(s) distorted		Work on balance			
	Poor spacing of images		Try adding empty space			
	Remove back from image(s)		Avoid elements on the edge			
Tex	Text		Neatness / Accuracy			
	Text blends into background		Work on neatness			
	Text is difficult to read		Work on quality			
	Too much or too little text		Work on simplicity			
	Work on text size / spacing		Spelling / Grammar errors			
Con	Content		er			
	Not appropriate for school					
	Create more visual impact					
	Not enough design elements					
	Too many design elements					

Criteria for Student Learning	Below Basic	Basic	Proficient	Exemplary
Requirements	3 or more requirements were not completely met.	2 requirements were not completely met.	1 requirement was not completely met.	All requirements are met or exceeded.
Functionality	The end product's design elements do not function as indented.	Some of the end product's design elements function, but significant problems exist within the design.	Most of the end product's design elements function as indented in regard to the criteria and constraints.	The end product's design elements function as indented in regard to the criteria and constraints.
Graphics	Little use of graphics or graphics completely detracts from the end product's design.	The inclusion of graphics occasionally detracts from the end product's design.	Most graphics are distortion free, appropriately sized and spaced, and enhances the end product's design.	All graphics are distortion free, appropriately sized and spaced, and enhances the end product's design.
Text	Little use of text or text completely detracts from the end product's design.	The inclusion of text occasionally detracts from the end product's design.	Most text is clear, easy to read, appropriately sized and spaced, and enhances the end product's design.	All text is clear, easy to read, appropriately sized and spaced, and enhances the end product's design.
Content	The selection of design elements is random. Design elements do not relate to each other or to the intended audience. Design elements have no visual impact or are not school appropriate.	Design elements occasionally do not relate to each other or to the intended audience. Design elements have little visual impact and may not be school appropriate.	Most of the design elements relate to each other and to the design. Most design elements are geared towards the intended audience, are school appropriate, and create visual impact.	All design elements relate to each other and to the design. Design elements are geared towards the intended audience, are school appropriate, and create visual impact.
Originality	The end product shows little original thought and design elements show little innovation. Designs are copied and pasted from other people's work.	The end product shows little original thought, but design elements are innovated.	The end product shows some original thought. Work shows some new and some innovated design elements.	The end product shows a large amount of original thought. Design elements are creative and innovated.
Attractiveness	Little use of text, color, graphics, effects etc.	Makes use of text, color, graphics, effects, etc. but occasionally these detract from the end product's design.	Makes good use of text, color, graphics, effects, etc. to enhance the end product's design.	Makes excellent use of text, color, graphics, effects, etc. to enhance the end product's design.
Organization	The end product is distractingly messy or very poorly designed.	The end product is somewhat organized in terms of design, layout, flow, visual hierarchy, and focal point.	The end product is acceptably organized in terms of design, layout, flow, visual hierarchy, and focal point.	The end product is exceptionally organized in terms of design, layout, flow, visual hierarchy, and focal point.
Neatness / Accuracy	The end product contains numerous design errors, misspellings, and /or grammatical errors.	Some of the end product's design is neat, clean, accurate, simple, and contains some misspellings or grammatical errors.	Most of the end product's design is neat, clean, accurate, simple, and contains only minor misspellings or grammatical errors.	The end product's design is neat, clean, accurate, simple, and contains no misspellings or grammatical errors.
