

CENTRAL DAUPHIN FOOTBALL

A PROUD HISTORY

Central Dauphin has enjoyed a rich and proud history on the gridiron. Our current players are very fortunate to be participating in a program that not only has achieved success in recent years but one that has also represented excellence for decades. This enduring excellence has been marked by some truly great teams and some superbly talented individuals along with legendary coaches and support staff and, of course, plenty of unforgettable moments.

In these pages we hope to bring to light some of the great history that we all share, whether it be the ones who had the privilege of wearing the uniform – football, band, or cheerleading – or the individuals who paced the sidelines as coaches, or the scores of people who served in support roles, or the countless number of people who cheered from the stands over the years. This is **OUR** past. And it is the common thread that connects us all.

As you page through this section of the game program, you may see names of individuals and teams that bring back some memories. For those of you who lived it and made Rams Football what it is today, I hope you feel a sense of pride – in both the program you were part of and the role you played. But for everyone, I hope this section provides a deeper understanding of who we are and from where we come.

And lastly, it is very important that our current Rams understand that they are part of something much greater than themselves. They are temporarily the caretakers of something very special that has been handed to them. Soon they, too, will leave and pass it on to the next generation of Rams. Hopefully they will do all they can to make it better for the Rams who will follow – much the same way as the Rams did before them.

“Tradition means giving everything you have for those who came before you, those who are with you and those who will follow you.”
